CVS Information

***CVS Minute Clinic Costs:** Minor illnesses\$99–\$139, Minor injuries\$99–\$139, Skin conditions\$99–\$139. Accepts most health care insurance plans. <https://www.cvs.com/minuteclinic/insurance-and-billing>

CVS Pharmacy Holiday Hours - Typically stays open during the holidays with reduced hours: Thanksgiving Day, Christmas Eve, Christmas Day, New Year’s Eve.

COVID Testing site locations: <https://www.vdh.virginia.gov/coronavirus/covid-19-testing/covid-19-testing-sites/>

CVS COVID-19 Testing Information

How do I schedule a COVID-19 Test?

- All COVID tests must be scheduled.
- Check eligibility by answering a few questions to see if you qualify for COVID-19 testing.
- Every individual who wants a test must make an appointment at www.MinuteClinic.com.
- Appointments can be made for the same day and up to two days in advance (depending on availability).
- On the day of test, bring confirmation code that you received in your confirmation text or email message, insurance card, proof of identity is required. Be sure to have your mobile phone in case CVS needs to reach you.

What type of test is available?

The MinuteClinic uses two types of COVID-19 testing to check for active infection.

- Rapid-result testing locations perform antigen testing, which returns results within hours.
- Lab testing locations perform polymerase chain reaction (PCR) testing, which typically returns results within 1-2 days (but may be longer in times of peak demand).

Do I need to schedule a Minute Clinic visit?

- No, in addition, referrals are not required.

Do they take insurance?

- Yes, patients with insurance should not have any out-of-pocket costs for a covered COVID-19 test, but you should check with your health plan to confirm before scheduling a test.
- If you have health insurance, you must bring your card with you to the test site.
- If you do not have insurance, CVS will ask you for your Social Security number (card not needed), driver's license or state ID to submit the cost of your test to the federal program for the uninsured.

How much do they charge?

- The cost is \$139, which includes \$100 for the independent laboratory that processes your test and \$39 for your MinuteClinic visit. No screening required.
- Self-pay is not available for rapid-result testing at this time.

How do I get a hard copy report of my results?

- Results for rapid testing are generally returned within hours of specimen collection (rapid testing locations are limited). For samples sent to lab partners, average turnaround time for receiving results is 1–2 days.
- CVS will text you a secure link to view your results. They'll be available to view and download for 5 days. CVS will also send you 2 emails to activate a MyChart.external site opens in new window account and view your results. Activate MyChart if you'll need permanent access to your result.
